

A close-up photograph of a modern staircase. The image shows two wooden treads, one in the foreground and one slightly above it. The treads are made of light-colored wood with a visible grain. They are supported by black metal balusters. The background is a solid black wall, creating a high-contrast, minimalist aesthetic.

- 
- A close-up photograph of a wooden handle and a black metal tool head. The handle is made of light-colored wood with a visible grain and is positioned diagonally from the top left towards the bottom right. The metal head is black, with a flat, rectangular face and a vertical stem. The background is plain white.
